Priority Service

Everything starts with our commitment to superior support. With Trustpoint, you're never in a queue and you're never left waiting for a resolution.

Flexible Models

We can work with you on a subscription, on-demand, or hybrid basis. Bundle all the services you need and let us handle everything, or choose just the services you need. We can do whatever works best for you.

Simple Pricing

Being a privately held organization, we have tremendous leeway when it comes to contract terms. Because our pricing is always transparent, your invoices will never contain surprises, penalties or hidden fees.

Our team has decades of high-level experience and literally wrote the models used by industry-standard software.

Proprietary Short Message Processor for Chats, Slack, Microsoft Purview/Teams and more.

Service pods comprised of high-level, multi-disciplinary project managers are qualified in every aspect of eDiscovery.

Managed Review

Our consultative, process-driven approach leverages proven strategies and best practices every step of the way.

Updated March 2023

Managing Attorney

Our managing attorneys have extensive experience managing large-scale complex matters for a variety of corporate clients and law firms. They are all experienced eDiscovery professionals who work to maximize efficiencies by leveraging technology to develop custom AI-optimized workflows.

Phases of Review

We are proficient in helping our clients through all of the potential phases of a litigation or investigation including but not limited to ECA, pre-review consulting, protocol drafting, internal investigations, reviews for production, offensive reviews, privilege logs, and deposition preparation. Our experience stretches across all industries including Second Requests, Hatch Waxman ANDA matters, government investigations, banking, and many others.

Reporting

Each project will have a dedicated managing attorney to serve as a single point-of-contact for the review team while also providing in-depth customized daily reporting.

Accuracy

Because of our expertise in managing large scale reviews, our teams excel at implementing robust and structured quality control to ensure accuracy and uniformity.

Efficiency

Custom workflows to efficiently review documents while training & monitoring review teams to optimize the rate of review.

Virtual and Secure

Our secure review process builds upon proven talent and workflows to establish geographically independent review teams.

Cyber Services

Our comprehensive approach to data privacy includes consulting with our privacy professionals and custom solutions to meet ongoing customer needs.

Updated March 2023

An Evolving Landscape

Data privacy regulation is developing rapidly, with new laws being discussed and implemented at both the state and national level. Firms that collect, maintain, or store personal information cannot afford to be unprepared in this rapidly evolving regulatory landscape.

Understand Risk, Plan Accordingly

Holding data contains risk. That data can turn from business critical to an organization's downfall in a moment's time. We can help you understand where your data is stored, what type of data it is, and the risks that go along with it. From there we can help you craft a plan that takes into account the full regulatory landscape, both current and projected, so that you have a complete plan for how to responsibly handle your data.

Incident Response

Quickly respond to breaches with proven workflows and expertise.

Incident Response Planning

Having a plan can help mitigate the costs associated with data incidents.

Data Privacy Risk Assessment

Good data policy begins with understanding an organization's risk profile.

Data Mapping

Locate all your data to understand the risks & build a response plan.

Compliance & Privacy

Our consultants bring a comprehensive approach to compliance.

Court Reporting

We choose our court reporters for their history of accuracy, customer experience and on-time delivery. Our next-level technology simplifies the entire process.

Updated March 2023

Anytime, Anywhere

Circumstances may change, but experience doesn't. We're experts in litigation technology and we only hire the most established court reporters & legal videographers. Since no two cases are the same – we'll work with you to help choose the right solution for your needs. And our reliable staff will deliver your transcripts on time, every time, in any format you need them.

Remote Depositions

Trustpoint's RemotePro platform combines secure video conferencing, interactive exhibit management, and cloud storage of deposition assets in an easy-to-use, professional interface. Attorneys can easily upload, share, stamp, and annotate digital exhibits, matching normal deposition workflows while providing participants with a seamless experience.

With Case Dynamics, upload transcripts to Relativity and automatically check testimony against evidence.

RemotePro is a purpose-built legal platform that combines video conferencing, exhibit management, and cloud storage.

When security is essential, we use a FedRamp approved platform for remote depositions.

Legal Staffing

Leverage our team of expert recruiting, sales and leadership specialists to deliver the talent you need, right when you need it.

Updated March 2023

Interim Staffing

Lean on one of the nation's largest full-service providers for a vetted, top-tier contract workforce. Attorneys and paralegals are available coast to coast and prepared for any size project at any time.

Permanent Placement

Our recruitment team partners with top legal professionals to align talent with opportunity. Our customized approach has provided immediate value to our law firm and corporate clients, since 1987.

Flexible Talent

Get expertise on-demand with flexible legal talent. Retain high-level attorneys with AmLaw & Fortune 500 experience at a fraction of the traditional cost.

For Law Firms

Choose a recruitment partner that understands the modern legal landscape & law firm culture.

For In House Legal Departments

Recruitment expertise to meet the ever-evolving needs of in-house legal departments.

Talent Includes:

Attorneys, Paralegals, Compliance Specialists, Contract Managers, Foreign Language Experts, Patent Attorneys, Document Reviewers, eDiscovery Project Managers,

Legal Translations

In a fast-paced global market, translations play a critical role. When you need absolute precision, accurately and on time, Trustpoint delivers.

Updated March 2023

In Depth Experience

As one of the nation's largest integrated legal solutions providers, we understand your challenges and the importance of timely and accurate translations. We have experience in a wide range of matters, including FCPA investigations, cross-border disputes, arbitrations, antitrust and patent litigation.

Priority Support

Our dedicated team of project managers will work closely with you to ensure that your translation needs are met. Backed by a certified quality-assurance program, we handle your documents with the confidentiality and expertise we know you expect.

eDiscovery Advantages

As a leading eDiscovery and translations service provider, we have the experience to know what matters most in multilingual discovery.

Faster Insight

Language Identification provides high-level reports on data sets and identifies the resources required for discovery.

Volume Efficiency

Use machine translations to decode large volumes of data, saving resources in the review process.

Trial-Ready

Translation by qualified linguists ensures credibility during witness interviews and court presentations.
