

COURT REPORTING

Summarize.One

Get up to speed quickly with our deposition summaries.

Designed to save you time and money, our summaries take complex testimony and distill it down to an easy-to-use format. We present you a document with all pertinent issues & facts outlined, so you can take action.

Cost-Effective

Because our summaries are priced by the page, rather than by the hour, they are very cost effective. Because you don't have to wade through pages of text to get all the information you need, they make your time more cost-effective too.

Professional Quality

Summaries are written primarily by attorneys and paralegals with legal experience. They are written in plain, concise English that can be digested quickly. Our job is to summarize, not evaluate testimony. Before they are submitted, each document is reviewed and proofread by our quality control team.

Multiple Formats

Deposition summaries are available in any of three standard formats. Our chart and page-by-page formats provide a continuous distillation of the transcript with intuitive topic headings. The topical format, in which testimony is organized into topical sections, indicates the page location of all information pertaining to each main subject (or the subjects you specify). We can also modify the format for each summary to conform to your specific requirements. Just get in touch and tell us what you need, we're here to help.
