

AdminNow

Full administrative control of Relativity,
only from Trustpoint.One

Updated August 2021

Dashboard Overview

AdminNow, part of the suite of Trustpoint proprietary tools, gives you a simple bird's-eye view for all your current Relativity matters. You can view user counts, data usage, and other essential metrics in a single, centralized dashboard.

Administrative Control

The AdminNow tool greatly simplifies and streamlines the Relativity administrative process. Easily create and manage users, groups, workspaces, & matters.

User Control

Easily manage volumes of users, permissions, and assign to relevant matters.

Data Management

Easily load and configure data, load third-party data sets into Relativity.

Workflow Documentation

A well-documented, illustrated playbook accompanies each instance of AdminNow.

Video Training Available

We've created step by step instructional videos to get you up to speed.
