Law Firm	2,298.60	\$220	\$505,692*	\$406,507`	80%

Methodology: Utilizing the actual hours billed by Trustpoint on several matters, this analysis compares the actual cost of our review to the projected cost of law firm review alone.

* Blended Rates reflect actual blend of: (1) regular time and overtime, and (2) review functions (First Pass Review, QC, Privilege Review & Project Manager). As law firms do not generally differentiate between regular time and overtime, all law firm time is treated as regular time.

** Estimated project cost is calculated based on known hourly rate and actual hours to complete project.
